KATHLEEN BABINEAUX BLANCO

GOVERNOR

MIKE D. McDANIEL, Ph.D.

SECRETARY

Certified Mail No.:

Activity No.: PER20050001

Agency Interest No.: 13553

Mr. Eric Metz  
Operations Manager  
Marine Industrial Fabrication, Inc.  
Post Office Box 9218  
New Iberia, Louisiana 70562

RE: Permit Modification, Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures  
Bldg/Repair Facility, Marine Industrial Fabrication, Inc., New Iberia, Iberia Parish, Louisiana

Dear Mr. Metz:

This is to inform you that the permit modification request for the above referenced facility has been approved under LAC 33:III.501. The submittal was approved on the basis of the emissions reported and the approval in no way guarantees the design scheme presented will be capable of controlling the emissions as to the types and quantities stated. A new application must be submitted if the reported emissions are exceeded after operations begin. The synopsis, data sheets, and conditions are attached herewith.

It will be considered a violation of the permit if all proposed control measures and/or equipment are not installed and properly operated and maintained as specified in the application.

Also enclosed is a document entitled "General Information." Please be advised that this document contains a summary of facility-level information contained in LDEQ's TEMPO database and is not considered a part of the permit. Please review the information contained in this document for accuracy and completeness. If any changes are required or if you have questions regarding this document, you may contact Mr. David Ferrand, Environmental Assistance Division, at (225) 219-3247 or email your changes to [facupdate@la.gov](mailto:facupdate@la.gov).

The permit number cited below and agency interest number cited above should be referenced in future correspondence regarding this facility.

Done this \_\_\_\_\_ day of \_\_\_\_\_, 2006.

Permit No.: 1260-00130-02

Sincerely,

Chuck Carr Brown, Ph.D.  
Assistant Secretary

CCB:sbp

**AIR PERMIT BRIEFING SHEET**  
**AIR PERMITS DIVISION**  
**LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY**

**Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures Bldg/Repair Facility**

Agency Interest No.: 13553

**Marine Industrial Fabrication, Inc.**  
**New Iberia, Iberia Parish, Louisiana**

**I. BACKGROUND**

Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures Bldg/Repair Facility is an existing marine jack-up vessel and offshore structure fabrication and repair facility. The facility currently operates under Permit No. 1260-00130-01, issued on October 10, 2002, and administratively amended on December 17, 2002.

**II. ORIGIN**

A permit application and Emission Inventory Questionnaire (EIQ) dated October 12, 2005, were received requesting a permit modification. Additional information dated January 19, 2006, was also received.

**III. DESCRIPTION**

The existing plant constructs and repairs marine jack-up vessels and offshore structures. Operations include fitting, welding, sandblasting, and painting. Vessels and structures are either floating on water, elevated 8 feet above water, or on land. Work barges are used when working on the hulls of vessels.

Under this modification, Marine Industrial Fabrication, Inc. (MIF) proposes to remove the road dust fugitive emission source (EPN # 4-97) due to the installation of a paved road leading to the facility and implement changes in emission rates due to an anticipated increase in shipyard production.

To obtain flexibility in usage of paints and to ensure minor source status with regard to emission of toxic air pollutants (TAPs), MIF proposes to limit the potential to emit TAPs below major source thresholds with federally enforceable specific conditions. Emissions of total TAPs from paints, thinners, and cleaning solvents will be capped at a maximum of 16.87 tons for any twelve consecutive month period; emissions of any individual TAP will be capped at various rates with all less than 10 tons for any twelve consecutive month period.

Estimated emissions from this facility in tons per year are as follows:

Pollutant	Before	After	Change
PM <sub>10</sub> <sup>1</sup>	16.92	16.63	- 0.29
SO <sub>2</sub>	---	---	---
NO <sub>x</sub>	---	---	---
CO	---	---	---
VOC <sup>1</sup>	19.00	24.97	+ 5.97

**Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures Bldg/Repair Facility**  
**Agency Interest No.: 13553**  
**Marine Industrial Fabrication, Inc.**  
**New Iberia, Iberia Parish, Louisiana**

<sup>1</sup>Includes the following TAPs

LAC 33:III. Chapter 51 Toxic Air Pollutants TAPs	Emissions in ton per year*
VOC TAP's	
Benzene	0.100
Dibutyl phthalate	0.190
Ethyl benzene	5.500
Formaldehyde	0.100
Glycol ethers (Table 51.1)	0.500
Hexamethylene diisocyanate	1.000
Methanol	9.000
Methyl ethyl ketone	9.000
Methyl isobutyl ketone	7.500
Naphthalenes (and methyl naphthalenes)	1.000
Phenol	0.700
Styrene	1.000
Toluene	9.000
Trichloroethylene	1.000
Xylenes	9.000
n-Hexane	6.500
n-Butyl alcohol	5.500
Non-VOC TAP's	
Barium (and compounds)	0.500
Chromium VI (and compounds)	0.500
Copper (and compounds)	0.500
Nickel (and compounds)	0.500
Manganese (and compounds)	0.500
Zinc (and compounds)	0.500
Total TAP's	16.872

- \* Aggregate toxic air pollutant (TAP) emissions shall be limited to no more than 16.872 tons per year. While maintaining the aggregate TAP emission limit, the emission of any single VOC TAP shall be restricted to no more than specified rate listed. Emissions in excess of the limits specified for any 12 month consecutive period shall be a violation of the permit and must be reported to the Office of Environmental Compliance, Enforcement Division.

**IV. TYPE OF REVIEW**

This permit was reviewed for compliance with Louisiana Air Quality Regulations. New Source Performance Standards (NSPS), Prevention of Significant Deterioration (PSD), and National Emission Standards for Hazardous Air Pollutants (NESHAP) do not apply.

This facility is a minor source of LAC 33:III.Chapter 51 Toxic Air Pollutants (TAPs).

**V. PUBLIC NOTICE**

A notice requesting public comment on the proposed project was published in *The Advocate*, Baton Rouge, Louisiana, on <<DATE>>; and in <<local paper>>, <<city>>, Louisiana, on <<DATE>>. Copies of the public notice were also mailed to individuals who have requested to be placed on the mailing list maintained by the Office of Environmental Services on <<DATE>>. No comments were received.

**LOUISIANA AIR EMISSION PERMIT  
GENERAL CONDITIONS**

- I. This permit is issued on the basis of the emissions reported in the application for approval of emissions and in no way guarantees that the design scheme presented will be capable of controlling the emissions to the type and quantities stated. Failure to install, properly operate and/or maintain all proposed control measures and/or equipment as specified in the application and supplemental information shall be considered a violation of the permit and LAC 33:III.501. If the emissions are determined to be greater than those allowed by the permit (e.g. during the shakedown period for new or modified equipment) or if proposed control measures and/or equipment are not installed or do not perform according to design efficiency, an application to modify the permit must be submitted. All terms and conditions of this permit shall remain in effect unless and until revised by the permitting authority.
- II. The permittee is subject to all applicable provisions of the Louisiana Air Quality Regulations. Violation of the terms and conditions of the permit constitutes a violation of these regulations.
- III. The Emission Rates for Criteria Pollutants, Emission Rates for TAP/HAP & Other Pollutants, and Specific Requirements sections or, where included, Emission Inventory Questionnaire sheets establish the emission limitations and are a part of the permit. Any operating limitations are noted in the Specific Requirements or, where included, Tables 2 and 3 of the permit. The synopsis is based on the application and Emission Inventory Questionnaire dated October 12, 2005, along with supplemental information dated January 19, 2006.
- IV. This permit shall become invalid, for the sources not constructed, if:
  - A. Construction is not commenced, or binding agreements or contractual obligations to undertake a program of construction of the project are not entered into, within two (2) years (18 months for PSD permits) after issuance of this permit, or;
  - B. If construction is discontinued for a period of two (2) years (18 months for PSD permits) or more.The administrative authority may extend this time period upon a satisfactory showing that an extension is justified.  
  
This provision does not apply to the time period between construction of the approved phases of a phased construction project. However, each phase must commence construction within two (2) years (18 months for PSD permits) of its projected and approved commencement date.
- V. The permittee shall submit semiannual reports of progress outlining the status of construction, noting any design changes, modifications or alterations in the construction schedule which have or may have an effect on the emission rates or ambient air quality levels. These reports shall continue to be submitted until such time as construction is certified as being complete. Furthermore, for any significant change in the design, prior approval shall be obtained from the Office of Environmental Services, Air Permits Division.
- VI. The permittee shall notify the Department of Environmental Quality, Office of Environmental Services, Air Permits Division within ten (10) calendar days from the date that construction is certified as complete and the estimated date of start-up of operation. The appropriate Regional Office shall also be so notified within the same time frame.

**LOUISIANA AIR EMISSION PERMIT**  
**GENERAL CONDITIONS**

- VII. Any emissions testing performed for purposes of demonstrating compliance with the limitations set forth in paragraph III shall be conducted in accordance with the methods described in the Specific Conditions and, where included, Tables 1, 2, 3, 4, and 5 of this permit. Any deviation from or modification of the methods used for testing shall have prior approval from the Office of Environmental Assessment, Air Quality Assessment Division.
- VIII. The emission testing described in paragraph VII above, or established in the specific conditions of this permit, shall be conducted within sixty (60) days after achieving normal production rate or after the end of the shakedown period, but in no event later than 180 days after initial start-up (or restart-up after modification). The Office of Environmental Assessment, Air Quality Assessment Division shall be notified at least (30) days prior to testing and shall be given the opportunity to conduct a pretest meeting and observe the emission testing. The test results shall be submitted to the Air Quality Assessment Division within sixty (60) days after the complete testing. As required by LAC 33:III.913, the permittee shall provide necessary sampling ports in stacks or ducts and such other safe and proper sampling and testing facilities for proper determination of the emission limits.
- IX. The permittee shall, within 180 days after start-up and shakedown of each project or unit, report to the Office of Environmental Compliance, Surveillance Division any significant difference in operating emission rates as compared to those limitations specified in paragraph III. This report shall also include, but not be limited to, malfunctions and upsets. A permit modification shall be submitted, if necessary, as required in Condition I.
- X. The permittee shall retain records of all information resulting from monitoring activities and information indicating operating parameters as specified in the specific conditions of this permit for a minimum of at least five (5) years.
- XI. If for any reason the permittee does not comply with, or will not be able to comply with, the emission limitations specified in this permit, the permittee shall provide the Office of Environmental Compliance, Surveillance Division with a written report as specified below.
- A. A written report shall be submitted within 7 days of any emission in excess of permit requirements by an amount greater than the Reportable Quantity established for that pollutant in LAC 33.I.Chapter 39.
- B. A written report shall be submitted within 7 days of the initial occurrence of any emission in excess of permit requirements, regardless of the amount, where such emission occurs over a period of seven days or longer.
- C. A written report shall be submitted quarterly to address all emission limitation exceedances not included in paragraphs A or B above. The schedule for submittal of quarterly reports shall be no later than the dates specified below for any emission limitation exceedances occurring during the corresponding specified calendar quarter:
1. Report by June 30 to cover January through March
2. Report by September 30 to cover April through June
3. Report by December 31 to cover July through September
4. Report by March 31 to cover October through December

**LOUISIANA AIR EMISSION PERMIT  
GENERAL CONDITIONS**

- D. Each report submitted in accordance with this condition shall contain the following information:
1. Description of noncomplying emission(s);
  2. Cause of noncompliance;
  3. Anticipated time the noncompliance is expected to continue, or if corrected, the duration of the period of noncompliance;
  4. Steps taken by the permittee to reduce and eliminate the noncomplying emissions; and
  5. Steps taken by the permittee to prevent recurrences of the noncomplying emissions.
- E. Any written report submitted in advance of the timeframes specified above, in accordance with an applicable regulation, may serve to meet the reporting requirements of this condition provided all information specified above is included. For Part 70 sources, reports submitted in accordance with Part 70 General Condition R shall serve to meet the requirements of this condition provided all specified information is included. Reporting under this condition does not relieve the permittee from the reporting requirements of any applicable regulation, including LAC 33.I.Chapter 39, LAC 33.III.Chapter 9, and LAC 33.III.5107.

- XII. Permittee shall allow the authorized officers and employees of the Department of Environmental Quality, at all reasonable times and upon presentation of identification, to:
- A. Enter upon the permittee's premises where regulated facilities are located, regulated activities are conducted or where records required under this permit are kept;
  - B. Have access to and copy any records that are required to be kept under the terms and conditions of this permit, the Louisiana Air Quality Regulations, or the Act;
  - C. Inspect any facilities, equipment (including monitoring methods and an operation and maintenance inspection), or operations regulated under this permit; and
  - D. Sample or monitor, for the purpose of assuring compliance with this permit or as otherwise authorized by the Act or regulations adopted thereunder, any substances or parameters at any location.
- XIII. If samples are taken under Section XII.D. above, the officer or employee obtaining such samples shall give the owner, operator or agent in charge a receipt describing the sample obtained. If requested prior to leaving the premises, a portion of each sample equal in volume or weight to the portion retained shall be given to the owner, operator or agent in charge. If an analysis is made of such samples, a copy of the analysis shall be furnished promptly to the owner, operator or agency in charge.
- XIV. The permittee shall allow authorized officers and employees of the Department of Environmental Quality, upon presentation of identification, to enter upon the permittee's premises to investigate potential or alleged violations of the Act or the rules and regulations adopted thereunder. In such investigations, the permittee shall be notified at the time entrance is requested of the nature of the suspected violation. Inspections under this subsection shall be limited to the aspects of alleged violations. However, this shall not in any way preclude prosecution of all violations found.

**LOUISIANA AIR EMISSION PERMIT  
GENERAL CONDITIONS**

- XV. The permittee shall comply with the reporting requirements specified under LAC 33:III.919 as well as notification requirements specified under LAC 33:III.927.
- XVI. In the event of any change in ownership of the source described in this permit, the permittee and the succeeding owner shall notify the Office of Environmental Services, Air Permits Division, within ninety (90) days after the event, to amend this permit.
- XVII. Very small emissions to the air resulting from routine operations, that are predictable, expected, periodic, and quantifiable and that are submitted by the permitted facility and approved by the Air Permits Division are considered authorized discharges. Approved activities are noted in the General Condition XVII Activities List of this permit. To be approved as an authorized discharge, these very small releases must:
1. Generally be less than 5 TPY
  2. Be less than the minimum emission rate (MER)
  3. Be scheduled daily, weekly, monthly, etc., or
  4. Be necessary prior to plant startup or after shutdown [line or compressor pressuring/depressuring for example]

These releases are not included in the permit totals because they are small and will have an insignificant impact on air quality. This general condition does not authorize the maintenance of a nuisance, or a danger to public health and safety. The permitted facility must comply with all applicable requirements, including release reporting under LAC 33:I.3901.

- XVIII. Provisions of this permit may be appealed in writing pursuant to La. R.S. 30:2024(A) within 30 days from receipt of the permit. Only those provisions specifically appealed will be suspended by a request for hearing, unless the secretary or the assistant secretary elects to suspend other provisions as well. Construction cannot proceed except as specifically approved by the secretary or assistant secretary. A request for hearing must be sent to the following:

Attention: Office of the Secretary, Legal Services Division  
La. Dept. of Environmental Quality  
Post Office Box 4302  
Baton Rouge, Louisiana 70821-4302

- XIX. Certain Part 70 general conditions may duplicate or conflict with state general conditions. To the extent that any Part 70 conditions conflict with state general conditions, then the Part 70 general conditions control. To the extent that any Part 70 general conditions duplicate any state general conditions, then such state and Part 70 provisions will be enforced as if there is only one condition rather than two conditions.

## SPECIFIC REQUIREMENTS

AI ID: 13553 - Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures Bldg/Repair Facility

Activity Number: PER20050001

Permit Number: 1260-00130-02

Air - Minor Source/Small Source Mod

### ARE001      EIQ# 1-97 Paint and Thinner Emissions

- 1 Prevent particulate matter from becoming airborne by taking all reasonable precautions. These precautions shall include, but not be limited to, those specified in LAC 33:III.1305.1-7. [LAC 33:III.1305]
- 2 Opacity <= 20 percent; except emissions may have an average opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes. [LAC 33:III.1311.C]

Which Months: All Year    Statistical Basis: Six-minute average

- 3 Permittee shall comply with the VOC content limitations of LAC 33:III.2123.C.1. [LAC 33:III.2123.C]
- 4 Determine compliance by the procedure specified in "Control of Volatile Organic Emissions for Existing Stationary Sources. Vol. 2-Surface Coating of Cans, Coils, Paper, Fabric, Autos and Lt. Duty Trucks", (EPA 450/2-77-008), the procedures specified in "Measurement of Volatile Organic Compounds" (EPA-450/2-78-041), a method approved by DEQ, or certification from the paint manufacturer concerning the solvent makeup of the paint. Treat exempt solvents the same as water in calculating the VOC content per gallon of coating. [LAC 33:III.2123.D.3]
- 5 Determine compliance with LAC 33:III.2123.A, C, and D by applying the test methods specified in LAC 33:III.2123.E.1 through E.7, as appropriate. [LAC 33:III.2123.E]
- 6 Equipment/operational data recordkeeping by electronic or hard copy continuously. Keep records of the information specified in LAC 33:III.2123.F.1 through F.4, as applicable, to verify compliance with LAC 33:III.2123. Maintain records for at least two years. [LAC 33:III.2123.F]
- 7 Permittee shall use wind screens, shrouds, tarps, or other engineering barriers around equipment being spray painted whenever practicable. All barriers shall have a shade factor of 80 percent or greater, and tears or holes greater than 1 foot in length shall be repaired before spray painting operation continue. When the use of barriers is not practicable, the permittee shall employ HVLP (high volume, low pressure) spray guns, airless spray guns, air assisted spray guns that use compressed air in addition to hydraulic pressure to achieve atomization, or other coating methods that will minimize overspray. [LAC 33:III.501.C.6]

### ARE002      EIQ# 2-97 Solvent Emissions

- 8 Reduce emissions, where feasible, by incineration, provided 90 percent of the carbon in the organic compounds being incinerated is oxidized to carbon dioxide (except as provided in LAC 33:III.2123.D); carbon adsorption of the organic compounds; or any other equivalent means as may be approved by DEQ. [LAC 33:III.2123.A]
- 9 Determine compliance by the procedure specified in "Control of Volatile Organic Emissions for Existing Stationary Sources. Vol. 2-Surface Coating of Cans, Coils, Paper, Fabric, Autos and Lt. Duty Trucks", (EPA 450/2-77-008), the procedures specified in "Measurement of Volatile Organic Compounds" (EPA-450/2-78-041), a method approved by DEQ, or certification from the paint manufacturer concerning the solvent makeup of the paint. Treat exempt solvents the same as water in calculating the VOC content per gallon of coating. [LAC 33:III.2123.D.3]
- 10 Determine compliance with LAC 33:III.2123.A, C, and D by applying the test methods specified in LAC 33:III.2123.E.1 through E.7, as appropriate. [LAC 33:III.2123.E]
- 11 Equipment/operational data recordkeeping by electronic or hard copy continuously. Keep records of the information specified in LAC 33:III.2123.F.1 through F.4, as applicable, to verify compliance with LAC 33:III.2123. Maintain records for at least two years. [LAC 33:III.2123.F]

### ARE003      EIQ# 3-97 Sandblasting Emissions

- 12 Prevent particulate matter from becoming airborne by taking all reasonable precautions. These precautions shall include, but not be limited to, those specified in LAC 33:III.1305.1-7. [LAC 33:III.1305]
- 13 Opacity <= 20 percent; except emissions may have an average opacity in excess of 20 percent for not more than one six-minute period in any 60 consecutive minutes. [LAC 33:III.1311.C]
- 14 Permittee shall shroud with tarps equipment being sandblasted to the extent that is practicable. Shrouds shall have a shade factor of 80 percent or greater, and tears or holes greater the 1 foot in length shall be repaired before sandblasting operations continue. [LAC 33:III.501.C.6]

## SPECIFIC REQUIREMENTS

AI ID: 13553 - Marine Industrial Fabrication Inc - Marine Vessels & Offshore Structures | Bldg/Repair Facility

Activity Number: PER20050001  
Permit Number: 1260-00130-02  
Air - Minor Source/Small Source Mod

### GRP002      Entire Facility

- 15 Outdoor burning of waste material or other combustible material is prohibited. [LAC 33:III.1109.B]
- 16 Emissions of particulate matter which pass onto or across a public road and create a traffic hazard by impairment of visibility or intensify an existing traffic hazard condition are prohibited. [LAC 33:III.1303.B]
- 17 Maintain best practical housekeeping and maintenance practices at the highest possible standards to reduce the quantity of organic compounds emissions. Good housekeeping shall include, but not be limited to, the practices listed in LAC 33:III.2113.A.1-5. [LAC 33:III.2113.A]
- 18 Failure to pay the prescribed application fee or annual fee as provided herein, within 90 days after the due date, will constitute a violation of these regulations and shall subject the person to applicable enforcement actions under the Louisiana Environmental Quality Act including, but not limited to, revocation or suspension of the applicable permit, license, registration, or variance. [LAC 33:III.21.19]
- 19 Discharges of odorous substances at or beyond property lines which cause a perceived odor intensity of six or greater on the specified eight point butanol scale as determined by Method 41 of LAC 33:III.2901.G are prohibited. [LAC 33:III.2901.D]
- 20 If requested to monitor for odor intensity, take and transport samples in a manner which minimizes alteration of the samples either by contamination or loss of material. Evaluate all samples as soon after collection as possible in accordance with the procedures set forth in LAC 33:III.2901.G. [LAC 33:III.2901.F]
- 21 Particulate matter (10 microns or less) <= 16.63 tons/yr. [LAC 33:III.501.C.6]
- 22 Toxic air pollutants (TAP) <= 16.872 tons/yr as a Total aggregate for the facility. [LAC 33:III.501.C.6]
- 23 VOC, Total <= 24.97 tons/yr. [LAC 33:III.501.C.6]
- 24 Which Months: All Year    Statistical Basis: Annual maximum  
Submit standby plan for the reduction or elimination of emissions during an Air Pollution Alert, Air Pollution Warning, or Air Pollution Emergency. Due within 30 days after requested by the administrative authority. [LAC 33:III.5611.A]
- 25 During an Air Pollution Alert, Air Pollution Warning or Air Pollution Emergency, make the standby plan available on the premises to any person authorized by the department to enforce these regulations. [LAC 33:III.5611.B]

### GRP003

- 26 Permittee shall maintain a logbook showing monthly records of the type and amounts of paints, thinners, and solvents used. [LAC 33:III.501.C.6]
- 27 Volatile organic compound (VOC) emissions shall be restricted to no more than the limit established in the "Emission Rates for Criteria Pollutants" section of this permit. Emissions in excess of the limits specified for any 12 month consecutive period shall be a violation of this permit and must be reported to the Office of Environmental Compliance, Enforcement Division. [LAC 33:III.501.C.6]
- 28 A report showing VOC and TAP emissions in the preceding calendar year, as well as the twelve consecutive month total for each month, shall be submitted to the Enforcement Division annually by March 31. [LAC 33:III.501.C.6]
- 29 All records shall be kept on site for five (5) years and available for review by the Office of Environmental Compliance, Surveillance Division. [LAC 33:III.501.C.6]
- 30 Aggregate toxic air pollutant (TAP) emissions shall be limited to no more than 16.872 tons per year, and the emissions of any single TAP shall be restricted to no more than the limit established in the "Emission Rates for TAP/HAP & Other Pollutants" section of this permit. Emissions in excess of the limits specified for any 12 month consecutive period shall be a violation of this permit and must be reported to the Office of Environmental Compliance, Enforcement Division. [LAC 33:III.501.C.6]
- 31 Permittee shall calculate and record emissions of VOC and TAP monthly. For each month, document the previous twelve consecutive month cumulative total of VOC and TAP emissions. [LAC 33:III.501.C.6]
- 32 Updated Material Safety Data Sheets shall be kept on all paints, thinner, and solvents. The permittee shall recycle where practicable, excess paints and used solvents. [LAC 33:III.501.C.6]

### GRP003 VOC/TAP Limits-Paints, Thinners, & Solvents

33 Use of any material emitting a toxic air pollutant (TAP) not listed in the "Emission Rates for TAP/HAP & Other Pollutants" section of this permit shall require a variance or permit modification prior to use. [LAC 33.III.501.C.6]
